

FANS & BLOWERS

Designers and Manufacturers of Industrial Fans

BSNZ Backward Bladed Fan

- Fully welded impeller
- Direct drive or belt driven
- The design of impeller enables light dust loadings
- Stainless steel or various paint finishes available
- Wide range of ancillaries available

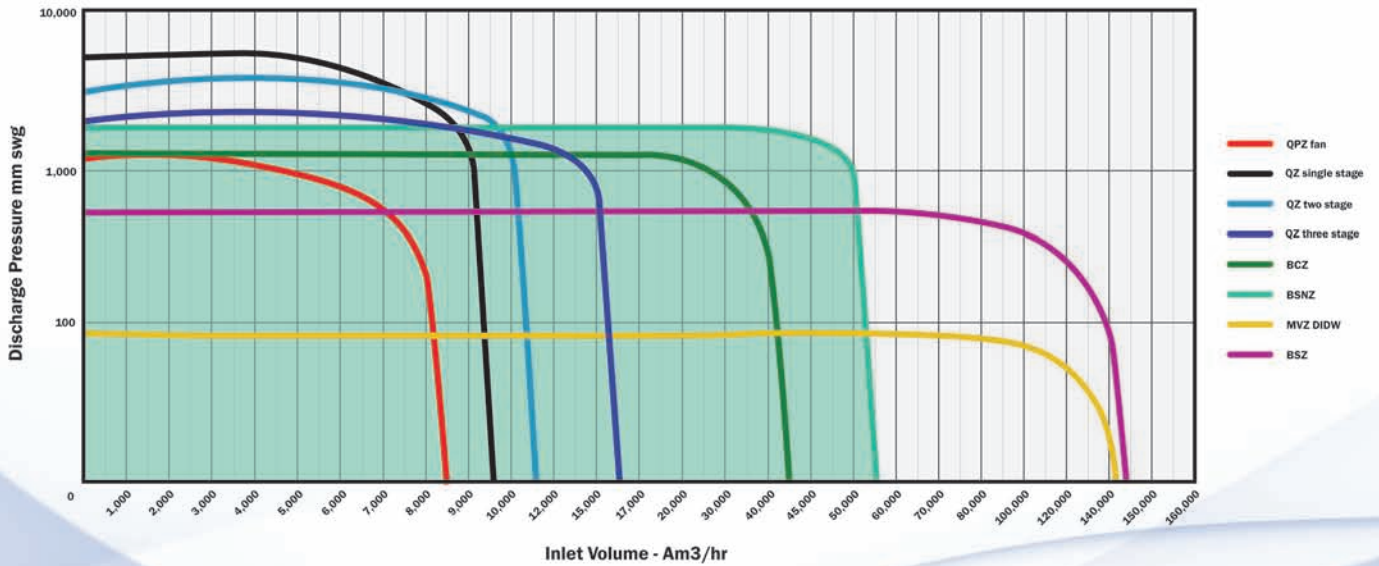

BSNZ

Backward Bladed Fan

The BSNZ range of fans incorporates three widths as standard. These are 50%, 35% and 20%. Three widths give a range of 680m³/Hr to 100,000m³/Hr and pressures up to 70" WG.
