- Comprehensive options list, including silencers and filters etc

QPZ *kit*

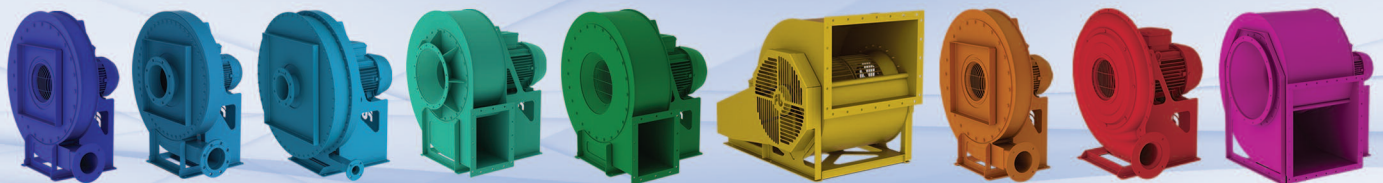

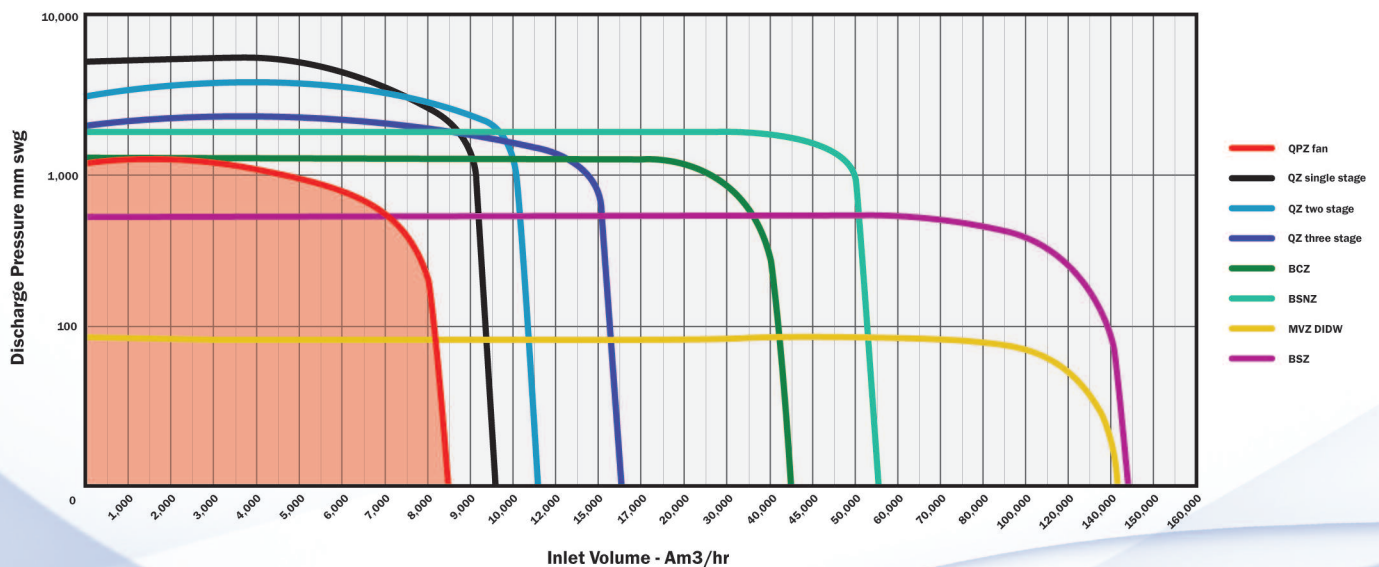

Radial Bladed Fan

Advantages of Customer Assembly Kits

- Particularly for countries outside of Europe, the QPZ kits if bought in reasonable quantities, provide lowest transport costs.
- Enables delivery within normal lead times as if manufactured locally. Fan can be customised to suit, assemblies, nameplates, paint, colour and local motor etc.
- The major fan components are made from mild steel sheet pressings which can be nested together to minimise transport costs and storage space.
